We bring you feedback from the piloting!

Stay+ platform was piloted in partner countries. Partners led focus groups of VET students and VET teachers who tested the Stay platform on their mobile phones.

+ **Interesting content**, the most popular badges were **sleep wellbeing** and **mental wellbeing**, interesting videos, helpful advice; ideas and inspiration in physical wellbeing

Teachers appreciated also questions to verify knowledge and **motivating** elements for students as

badges and levels. Teachers consider a platform as a **useful tool usable in schools**, a topic of well-being is covered from different perspectives (mental, social, physical, sleep wellbeing etc.).

You can join the testing of the platform now and empower your physical, social and mental wellbeing.

Snippets from the evaluation:

- + **attractive graphic** of the Stay+ platform was highlighted by all participants
- + the platform concept and badges design are **cheerful and positive**
- + **User-friendly** app
- + Collecting badges as and the possibility of its **sharing**
